

MARCH WEATHER

Is Very Trying, Especially on the Run Down,
Overworked and Weak

The World Famous Spring Tonic and Stimulant, DUFFY'S PURE MALT WHISKY

The standard of purity and excellence for nearly half a century. It is just what you need to build up your system, after the good tedious trials of winter. DUFFY'S PURE MALT WHISKY has no equal. It contains not a drop of "Foul Oil," the most dangerous ingredient which is found in other whiskies.

Cures "La Grippe"

In one night. Take a tablespoonful of "Duffy's" in a glass of water or milk every two hours. It prolongs life. Ask your doctor.

Robust at 104.

TOWNSEND MILLER, Jamaica, L. I., writes: "Though I am now past 104 years of age, I am today as strong and healthy as I was 50 years ago, and still able to do a good day's work. I attribute my health, vigor and great age to the constant use of a little Duffy's Pure Malt Whisky daily for many years. It has kept me free from disease and prolonged my life 25 years. Duffy's is the greatest medicine in the world, a tonic to old people, and I will never be without it."

DUFFY'S PURE MALT WHISKY cures consumption, coughs, colds, grippe, bronchitis, pneumonia, catarrh, asthma, malaria and all fevers. It aids digestion, stimulates and enriches the blood and cleanses the system from germs of every description. It invigorates the brain, insures refreshing sleep, keeps the old young and the young strong.

On Account of its Absolute Purity

over 7,000 leading doctors prescribe and endorse it as the only absolutely pure alcoholic stimulant known to the medical profession. Nearly every prominent hospital uses it exclusively when a stimulant or tonic is required.

Many clergymen use DUFFY'S PURE MALT WHISKY for medicinal and family purposes. We receive thousands of written endorsements from grateful patients who have been cured by DUFFY'S PURE MALT WHISKY.

CAUTION—When you ask for Duffy's Pure Malt Whisky be sure you get the genuine. Unscrupulous dealers, mindful of the excellence of this preparation, will try to sell you cheap imitations of so-called Malt Whisky substitutes, which are put on the market for profit only, and which, far from relieving the sick, are positively harmful. Demand "Duffy's" and be sure you get it. It is the only absolutely pure Malt Whisky which contains medicinal and health-giving qualities. Duffy's is sold only in bottles, our own special brand bottle, like this picture. Never in bulk or flasks. Look for the trade-mark, "The Old Chemist," on the label.

The genuine Duffy's Pure Malt Whisky is sold by all druggists and grocers, or direct, at \$1.00 a bottle. Write for free medical booklet, containing symptoms and treatment of each disease and convincing testimonials. Duffy Malt Whisky Company, Rochester, N. Y.

GREAT FLORAL CLOCK ON AGRICULTURE HILL

World's Fair Visitors Will Be
Able to Tell Time by Land-
scape Decorations.

DIAL A REVOLVING GARDEN.

Elaborate Plans for Beautifying
Grounds Have Been Matured
and Florist Will Construct
Mammoth Timepiece.

Elaborate plans for the treatment of the hill on which the Horticultural Building will stand have been perfected by Frederick W. Taylor, Chief of Agriculture and Horticulture.

The most curious feature of the plan is a gigantic floral clock that will tell exact time on a dial 100 feet in diameter, which will occupy the center of the northern slope of the hill. Two of the exhibit departments will co-operate in the production of the feature.

An exhibitor applied to Chief Hubert of Manufactures for the privilege of showing the machinery for such a clock and suggested that the dial be a mammoth flower bed. The floral portion of the clock was turned over to the Horticultural Department and Mr. Taylor has found a florist who is willing to furnish the dial in flowers.

BEDS OF DIFFERENT HUES.
The crown of the dial will be of white bedding plants. Each figure of the hours will be ten feet high. The hands will be fifty feet long. The clock is operated pneumatically. A hidden power-house to shelter a motor and pump for supplying compressed air is to be built at the southern end of the clock.

The clock will occupy a slope of about thirty degrees, so that it will be visible from the entire district west of Skinner road and north of Agricultural Hill. It will be sixteen times as large as the great time-keeper in the Parliament House at London, which is said to be the largest on earth. The mechanism for the clock is an enlargement of that used in the ordinary tower clock, and is to advertise a manufacturer of tower clocks.

The east slope of the hill abutting Skinner road will contain a rose garden 100 feet long and 80 feet wide in which will be shown at least 25,000 separate plants of every known variety that grows in this latitude. Above this rose garden two immense flower beds are planned. One has been named the Horticultural Bed, the other the Historical Bed.

NAMES FORMED OF PLANTS.
The Historical Bed uses the fleur-de-lis, the letters L. P. E. The figures 1893 and 1904, and the names of Napoleon, Jefferson, McKinley, Roosevelt and the United States flag and shield. The Horticultural Bed uses the fleur-de-lis, the letters L. P. E., the Exposition flag and the names of four men who have been prominent in horticulture—Peter Henderson, a seedman; Thomas Meehan, shrubberyman; Henry Shaw, the St. Louis botanist; and J. Sterling Morton, who while Secretary of Agriculture, founded Arbor Day. These beds will be almost 1,000 feet long.

The planting of the rose garden and of the beds will begin next fall. The beds will change with the seasons. They will be first planted in tulips by a florist from Rotterdam, Holland, 15,000 bulbs being used. The bulbs will be put into the ground next fall and will have attained their full glory when the Exposition opens. When the tulips cease blooming, they will be replaced by other blooming plants.

On the eastern slope of the hill a space has been reserved for exhibits of ornamental plants in two ponds of considerable size, for which specimens are naturally formed. One of these ponds will be artificially heated by hot-water pipes to supply a proper temperature for growing the Victoria regia, the largest of aquatics.

ENTIRE HILL DEVOTED TO FLOWERS.
The "rockery" will be maintained on the same slope, where will be grown agaves, sedums, aloes, cacti and other plants which thrive best in rocky places. The remainder of the hill will be given up entirely to flower beds, to be made and maintained by florists from all parts of the world. The beds are to conform in shape, location and color to plans drawn by the staff of Chief Taylor and they are to compete for awards with the plants shown in the Horticultural Building.

Between the Horticulture and Agriculture buildings, the largest display of cacti ever made on earth will be exhibited by the Mexican Government. Commissioner Nuncio has already applied for the space and his emissaries are collecting the material to fill it.

The ground covered by these plans embraces sixty acres. Special provisions will be made by the Exposition Company's horticultural department for supplying good soil for the plants. Twelve inches of black soil will be put into place there. Three inches of black soil will suffice for the grass.

The landscape department in all the grading operations on the site has stripped off the black soil and heaped it in mounds at various parts of the grounds. This soil may be spread wherever it is needed.

FOR NEBRASKA APPROPRIATION.

Major Salmon and W. H. Moore Call on the Governor.

REPUBLICAN SOCIAL.
Lincoln, Neb., March 21—Major Harvey P. Salmon of Clinton, Mo., W. H. Moore of St. Louis and W. J. Bryan were members of a delegation that called on Governor Mickey this morning and discussed the situation regarding the appropriation for the St. Louis Exposition. Mr. Moore briefly outlined the progress that was being made, and told what several other States had done in the way of appropriations.

Governor Mickey replied that the State Legislature was considering a \$75,000 appropriation, and that he would be guided by what it did. The Missourians will present their case to the Legislature next week. They are guests of Mr. Bryan at Fairview.

CHILD RESCUED FROM WELL BY AN UNIDENTIFIED MAN.

Johnnie Colgrave Fell Into Water
While Dancing on Covering
With Playmates.

Johnnie Colgrave, 4 years old, was rescued from a well in the rear of No. 218 Cass avenue at 3 o'clock yesterday afternoon by a man, who departed without leaving knowledge of his identity.

The child was dancing on the wooden covering of the well, with several playmates around him, when the covering gave way, letting him down nearly ten feet. There were several feet of water in the well, and when the stranger brought the child to the top both were dripping wet.

Johnnie lives with his parents at No. 1464 North Twenty-first street. After his rescue his playmates led him home, where his mother replaced the wet clothes with warm, dry ones, and he was but little the worse for his experience.

LEVEE BREAKS SOUTH OF BIRD'S POINT

Embankment Had Shown Signs of
Weakness and Inhabitants
Had Fled to the Hills.

THOUSANDS OF ACRES FLOODED

Continued Rains Weaken the
Levees of the South and
Further Breaks Are
Feared.

BY A STAFF CORRESPONDENT.

Charleston, Mo., March 21—A break in the levee about two miles south of Bird's Point occurred shortly after 10 o'clock this morning. Nearly three-quarters of a mile of farm lands were inundated to a depth of from two to three feet.

Owing to the fact that this particular part of the levee had shown signs of weakness for the last three or four days, the persons living in the submerged district had prepared for the flood by moving their household effects to high ground. A force of men was put to work at once repairing the break, and, as the river is falling steadily, it is thought there is no danger of the flood spreading throughout the extreme southeastern part of Mississippi County, as was feared.

It is fortunate that only the top of the levee was washed away, for had the entire embankment yielded to the pressure of the water, there would have been a large amount of property lost and perhaps several lives.

COUNTRY UNDER WATER.
While the official gauges indicate a fall of more than a foot within the last twelve hours the submerged country is apparently as much under water as it was two days ago. Along the Iron Mountain tracks from Bird's Point to within a few miles of Dexter the results of the high water are very evident. As far as eye can reach in either direction the fields are for the most part under water.

The country in this vicinity, however, is comparatively sparsely settled, and very few have been seriously inconvenienced by the flood.

The heavily wooded parts of the country, which I am told are very pleasing in winter weather, present the aspect of swamps. Immense masses of underbrush and dead leaves can be seen floating between the trees, which gives a desolate and neglected appearance to the scene.

COMMUNICATION CUT OFF.

At Rodney, four miles from Bird's Point, the water has encroached upon the railroad property and completely cut off communication between the station and the village. An old box car located on a side track is being used for the accommodation of the public, and, with the exception of several back yards, has escaped being flooded.

RICHES SUGAR PLANTATIONS IN LOUISIANA ARE THREATENED.

New Orleans, March 21—The gauge here today marked 127, which is in excess of the record of 127. It is rising very slowly. In spite of the Arkansas break, the current here is still terrific and the water is being carried out to the sea at a tremendous rate.

The strain against the levees south of Red River, on both sides of the river, is increasing, but confidence continues to be expressed that they will hold.

A heavy rain fell during the night and early this morning, and the weather is cloudy and threatening further precipitation.

Some caving at Gretna, opposite the city, was reported to-day. A large force of men was put to work there and the sloughing arrested.

GRAVE DANGER IS REPORTED AT LELAND, ARK.

Memphis, Tenn., March 21—The river is now falling at Memphis, and it is believed the worst of the flood situation is over. The gauge to-day marked 38.8 feet, against 40.1 feet last night, and a steady decline in the big stream is predicted from now on.

The three breaks in the levee north of Memphis will send a large volume of water through the St. Francis Basin in Arkansas. This water will flow into the Mississippi again at Helena, and the levees south of there will feel its full force.

The situation south of Memphis shows a break place at Leland, Ark., opposite Greenville, Miss.

The caving of the river bank along the

front of the levee there has continued rapidly and is now within 100 feet of the levee proper. A boat has left Greenville with a heavy cargo loaded with rock. It is the intention to sink the barge directly in front of the threatened portion of the levee with a hope that it will stop the encroachment of the waters.

Mayor Williams telegraphed the Secretary of War last night accepting his offer to supply tents for flood refugees and asking that 500 tents be shipped at once. The tents were shipped to-day from Jeffersonville, Ind. Mayor Williams will not call for commissary supplies unless resources are exhausted here.

The railroads west of Memphis are still under water. The officials are working hard to open the lines and the general superintendent of the Iron Mountain announces that his line will probably be opened for traffic Monday. In this event the other lines will begin traffic operations over the Iron Mountain tracks.

SENDING TENTS TO REFUGEES.

War Department Draws Supplies From St. Louis and Jeffersonville.

Washington, March 21—In response to requests received by Secretary Root to-day

from the Governors of Tennessee and Arkansas for tents for the relief of the refugees from the overflowed Mississippi River districts, Colonel Patten, acting Quartermaster General, has telegraphed instructions to the Quartermasters in charge of the depots at St. Louis, Mo., and Jeffersonville, Ind., to send, with the utmost dispatch, 500 tents to Memphis and 100 to Marianna, Ark.

DISCUSSES CITY GOVERNMENT.

Former Mayor Walbridge Addresses Young Men's Club.

Former Mayor Cyrus P. Walbridge addressed the Young Men's City Government Club at the First Congregational Church last night on "The Branches of Municipal Government."

His remarks were upon the elementary principles of the city government, explaining the scheme of the Charter, the offices and the duties of the officers.

The next meeting of the club will take place the first Saturday night in April. The speaker will be either the Reverend Father J. T. Coffey or Earle Layman, secretary of the Civic Improvement League.

Danderine

GREW THIS HAIR.

Miss Sarah MacComb, whose hair touches the floor when she stands erect, says: "My hair would not reach below my waist when I commenced using Danderine, and it is now over five feet in length." (Look at her beautiful hair and judge for yourself whether or not she got the worth of her money.)

The above photograph of Miss Frances Marie Knowlton shows what care, persistence and a good hair invigorating tonic will do in the way of producing hair. This little girl has had Danderine applied to her hair and scalp regularly ever since she was three months of age, with the result that she now has the longest and most beautiful head of hair ever possessed by a child of her age.

Frances Marie is the daughter of Dr. E. W. Knowlton, the discoverer of Danderine, 300 Garfield boulevard, Chicago. The doctor says that his hair continues to grow very rapidly and he is sure it will be long enough to touch the floor when she stands erect by the time she is four years old.

Miss May Denmore, now the longest-haired lady in the world, says: "I have used your Danderine two years, and my hair has grown over an inch in length every month since I commenced its use. It surely contains most remarkably invigorating qualities." (Miss Denmore writes us under recent date that Danderine had made her hair grow three feet longer than it was naturally, and is still growing.)

OFFICIAL GUARANTEE.
To Whom It May Concern: The KNOWLTON DANDERINE CO., Chicago, hereby guarantees to refund the full purchase price of Danderine to any person who grows a new hair, and who returns the bottle and a certificate of the physician or druggist who sold it.

FREE To show how quickly Danderine acts we will send a large sample free by return mail to anyone who sends this advertisement to the KNOWLTON DANDERINE COMPANY, Chicago, with their name and address and 10 cents in silver or stamps to pay postage. NOW at all druggists in three sizes, 25c, 50c, and \$1.00 per bottle.

DEAF MUTES PLIGHT THEIR TROTH THROUGH AID OF AN INTERPRETER.

MISS HARVEY GERBING.
The bride, who was Miss Elsie Case.

An unusual marriage ceremony was performed in the office of Justice Robert Carroll yesterday afternoon, when Elsie Case and Harry Gerbing, deaf mutes, of Springfield, Ill., were united.

In order that the bride and bridegroom might make the customary marriage vows an interpreter was needed.

Mrs. W. F. Shaw of No. 306 North Twenty-third street performed this duty. She is an old friend of the bride and learned the deaf and dumb language from her many years ago. She was, therefore, qualified to impart to bride and bridegroom the questions asked by the Justice.

"Ask him if he takes this woman for his

MRS. W. F. SHAW.
Who acted as interpreter at the mute wedding.

and smiled. The marriage ceremony was lawfully wedded wife," said Justice Carroll to Mrs. Shaw.

Mrs. Shaw spoke to the groom in the sign language, and the groom nodded his head performed in this way, and when it was ended the bridal party went to the home of Mrs. Shaw.

To Make Red Cheeks

A little red, a little white, delicately blended. That's one way. Here's a better:

Take Ayer's Sarsaparilla. It makes the blood pure and rich. You know the rest: red cheeks, steady nerves, good digestion, restful sleep, power to endure.

Keep the bowels regular with Ayer's Pills; this will greatly aid the Sarsaparilla. Two grand family medicines. Keep them on hand. J. C. AYER CO., Lowell, Mass.
